GEN. HUERTA IS MAKING CONCESSIONS

ARMY AND CIVIC POSITIONS
HANDLED TO REBEL-LEADERS

GENERAL ZAPATA SENT OUT
WITH FEDERAL TROOPS TO
PUT DOWN BAND OF REBELS
IN MORELOS STATE.

MEXICO CITY, Feb. 27 — Provisional President Huerta is beginning to temper his "iron hand" methods with concessions to the chiefs of the various insurgent bands. Several of these have been made officers of the regular army or appointed to the governorships.

It is reported that Eufemo Zapata, brother of the insurgent general, has been promised the position of governor of Morelos. General Emilio Zapata and Pascual Orozco have deserted the insurgent banners, pledging allegiance to the new government. General Orozco has been made an officer in the standing army, and General Zapata now commands 700 horsemen in the state of Morelos, his duty being to put down the bandits in that state. The remainder of his force has been disbanded.

The federal army will be at once increased to 150,000 men with compulsory military training. A portion of the federal army has been ordered to the state of Coahuila to put down the rebels under Governor Carranza.

Many insurgent leaders of less importance are coming to the capital to swear allegiance to the Huerta government. The government is seeking a loan of \$100,000,000 for the pacification and rehabilitation of the country.

Fighting Goes on Today—

DOUGLAS, Texas, Feb. 27 — Fighting is going on today between the Mexican federals and insurgents at Fronteras, 35 miles southwest of Ague Prieta. The townspeople seized the garrison and government building and the federals attacked them.

It is said that arms and money are being smuggled across the line into Mexico. The rebels are claiming successful uprisings in Hermosillo, Guaymas and Magdalena. Many Mexicans are returning from the United States to take up arms.

CAPITAL, MARCHING THROUGH
STICKY MUD.

LAUREL, Md., Feb. 27 — The marching band of suffragettes started today on the march of 12 miles through sticky mud to Blendeburg, where the last night's stop will be made before entering Washington. The pilgrims are footsore and aching in every muscle and have lost most of their enthusiasm. They got a cold reception here last night.

It has been suggested that the hikers deliver a letter to the Washington suffragettes, who would mail it to President-elect Wilson. "General" Jones, leading the hikers, declared: "We will be the letter deliverers ourselves." Those close to Wilson announce he will not give the pilgrims an audience.

Perhaps some of the young men of this community who have refused our good advice will listen and heed the advice of Benjamin Franklin. Here is what "Benjamin" said to the young men:

"Save, young men, and become respected and respectable. It is the surest way."

The only mistake he made was in not mentioning our bank as the place to begin saving. The fact is our bank had not started when Franklin made the above remark or he would have told the young men to start a bank account at the Merchants' Bank.

"Mamma," she said, "where is Capa
city?" "I don't know, why?" asked
the mother. "I see it on a car there,"
she replied. "Capa city" happened to
be "capacity, 52,000 pounds," which
she really saw.

MISS ETHEL ROOSEVELT

The engagement of Miss Ethel
Roosevelt to Dr. Richard Derby of
New York has been announced by
Colonel and Mrs. Roosevelt.

*"Preserving" the Baby.
Young James had seen some fish
pickled, and was at once impressed
and puzzled by the explanation, elicited
by a long and steady fire of ques-
tions, that the salting process was to
make the fish "keep." A little later
he attended the baptism of an infant
friend and was still puzzled. But at
last a light broke in upon him, and
in a shrill tone that could be heard
all over the sacred edifice he exclaim-
ed: "Oh, now I know all about it.
mother. The water is to make the
baby keep!"

Rainy Day Hint.
To mend an umbrella that tears
loose from the rib at the point, when
you are on the street and needle and
thread are not available, close the
umbrella and bringing the cloth in po-
sition, insert a small hairpin in the
hole of the rib, and wind securely
around cloth. This "first aid to the
injured" is so efficient you will be
tempted to leave it permanently.—
National Magazine.

Just About.

think is the matter with the world
nowadays?" Uncle Eben—"Just this:
There's too much business in religion
and not enough religion in business!"
—Puck.

A MAN YOU KNOW.

chants bank and one of the best

Some Fences.
A New York banker who feels that
the privacy of his town residence has
been invaded by the construction of
apartment houses on adjacent prop-
erty has filed plans with the building
department of that city for a fence 150
feet high. A nine-story apartment
building is to be built on the lot west
of the home of this banker, who is J.
M. Francolini, and he figures that a
fence 150 feet high will be required to
keep its future occupants from looking
down upon him.—Popular Mechanics.

Good Substitute for Sardines.
The fact that Maine herring, when
quite young, are canned and marketed
for sardines done up in olive oil, is
fairly well known. As the home prod-
uct is about as tasty and wholesome
as the imported article, there is not
much use of getting excited over the
imposition.

Exceptional Case.
First Beggar—I tell you, Bill, it pays
ter be polite. A "Thank yer" never
hurt nobody. Second Beggar—It did
me. I said it to a lady without think-
in' when I had me deaf and dumb card
on, an' she had me arrested for an
imposter.—Boston Evening Transcript.

THE DAILY NEWS-15 Cents a Week

Her Natural Occupation.
Now and then the childish com-
ment goes right to the heart of a
difficult problem or situation. A little
boy who longed to stand on the seat
of a car and look out of the window
was sternly reproved by his mother.
"What a traitor cat mamma!" exclaim-
ed another youngster, seated near.
"Yes, I suppose she is nervous," was
the adult reply. "But then, you see,
she has to take care of her little boy
and it keeps her busy." "Well, isn't
that what she's for?" was the inno-
cent, pertinent question.

Letter Undraped.
Little Lola, aged five, went to the
door in answer to the postman's ring,
and was handed a postal card, the
first one she had ever seen. "Oh,
mamma," she exclaimed, "here's a let-
ter for you, but it hasn't got any
skirt on!"

How It Was in Rome.
In the golden age of 300 peaceful
years under imperial Rome crime al-
most ceased, Gibbon says, because no
man could escape the jurisdiction of
Rome, for Rome then was the whole
world.

Paper Plates for Animal Plates.
Using paper plates for animal plates
will be found to be a good plan. Some
people do not take the care to wash
plates kept for dogs and cats, al-
though they should be kept scrupulously
clean and be used for no other
purpose. Paper plates, which may
be bought by the hundred for less than
the money, may be burned after use
have been used. It is also a good
idea to have a place of zinc put in
the back porch, where the pet is
likely to be fed, and place the zinc
on this for them. The zinc is easily
cleaned.

Pedagogue at His Worst.
An Ohio schoolteacher has declared
that both the Declaration of Inde-
pendence and the Constitution are
lacking in literary style. It would be
too great a risk to trust that man
with either the first chapter of
Genesis or the Gettysburg speech—

**The finest resort
hotel in the world
is being built at
Sunset Mountain
Asheville, N. C.****Absolutely Fireproof
Will open July 1st**

Wm. S. KENNEY, manager

MR. E. W. GROVE, of St. Louis, Mo., is building the finest resort
hotel in the world, to be opened July 1st, 1913. It will be absolutely
fireproof, and is being built of the great boulders of Sunset Mountain, at
whose foot it sits. It is being built by hand in the old-fashioned way.
Full of rest and comfort and wholesomeness.

Q The front lawn is the hundred-acre eighteen-hole golf links of the
Asheville Country Club, and with it sixty acres of our own lawn.
Q The purest water obtainable anywhere, piped seventeen miles, from
the slopes of Mount Mitchell, over 6000 feet altitude. Biltmore milk and
cream exclusively, supplied from 200 registered Jerseys on the estate of
Mr. Geo. W. Vanderbilt. It is doubtful if this famous dairy is equalled
in the world.

Q Four hundred one-piece rugs are being made at Aubusson, France.
Seven hundred pieces of the furniture are being made by hand by the
Roycrofters. The silver will be hand-hammered.

Q The plumbing material will be the finest that has ever been placed in
any hotel in the world. The soil pipe has been hydraulically tested and
then galvanized. The hot water pipe, 18,000 lbs. in weight, will be solid
brass. The steam pipes are Byers' genuine lap-welded wrought iron tested
hydraulically to 1000 lbs. The bathtubs and fixtures all solid porcelain.
No pipes visible anywhere. No radiators to be seen—all placed in re-
cesses under windows. No electric bulbs to be seen.

Q The "Big Room," or what some call the lobby, is 80 feet by 120, and
the rugs in this one room will be worth \$5000.00. The two great fire-
places in it will burn twelve-foot logs.

Q For the golfers we are building lockers and shower bath rooms with
a forty-foot swimming pool that will not be excelled by the finest clubs
in existence, and the players will be less than 100 yards distant when they
are on the links.

Q Mr. Wm. S. Kenney, of Bretton Woods, N. H., who has shown in his
management of The Mount Washington hotel and Hotel Clarendon,
that he is the peer of hotel keepers, will manage the Inn.

Q We own eight hundred acres around the Inn (consumptives not
taken).

Q Especially available for northern guests in the Spring, Fall and Winter,
going or returning from farther southern resorts, or for an all Winter re-
sort.

Q The Inn is located on the side of Sunset Mountain, about a mile from
the top, and is not only cool enough in the Summer to make a blanket
necessary at night, but is protected and mild enough in the Winter to
make life enjoyable without encumbrance.

OHIO PEOPLE MEET AT

NEW DAYTONA THEATER.

The Ohio day meeting Wednesday afternoon in the New Daytona theater proved a success.

At 2 o'clock the assemblage, that comfortably filled the theater, was called to order by Dr. S. P. Leland, the president, who gave a short address on Ohio, after which the day of meeting hereafter was changed to the second Wednesday of February, of each year. This was followed by remarks from E. M. Condit and W. H. Miller of this city, and by the reading of a poem by W. L. Miller, of Ohio.

An invitation had been extended to John D. Rockefeller to attend the gathering, and a letter from the oil magnate to Dr. Leland was read, in which Mr. Rockefeller expressed regret that a previous engagement kept him from being present. He asked to be remembered to all Ohioans.

It was decided to publish the name of persons registering again this year, as was done last year. A general time of shaking hands and getting acquainted followed. All in all, it was a very enjoyable time for the visitors and friends. The next meeting will be looked forward to with pleasant anticipations.

The Washington Ball at Hotel Clarendon

Although anticipations of the great Washington birthday ball at Hotel Clarendon were high, they were surpassed by the brilliant affair of Saturday night. This year the event overshadowed those of all previous years in way of splendor, attendance and enjoyment and proved the feature event of the season. Visitors from all parts of the country arrived in time to be present on this memorable occasion, as well as from different sections of Florida. The affair being so delightfully informal the visitors were in their merriest mood and the young set was at its best, while the older ones soon caught the spirit and readily joined in and, to all intents and purposes, were young again. During the inspiring music of two-step and waltzes, 20 in number, all ages, were tripping the light fantastic, from the juvenile right along the line up to three score years and more. The superb crimson and white ballroom, a thing of beauty, was complete and effective in its own natural decorations and extra lighting of electricity. The large assemblage of handsome women, many of an unusual type, with their gorgeous attire, sparkling jewels and happy faces, furnished the handsomest of all decorations that could have been employed. Altogether the scene was one of surpassing brilliance and beauty.

The large ballroom was crowded, there being three rows of chairs lining the walls, every seat of which was taken, and crowds were standing. The dancing set was grouped within this human rectangle.

At the entrance end to the ball room leading from the lobby every available inch of space was utilized by the dancers. Dreamy waltzes, two-steps that had dash, spirit and liveliness, were enjoyed, while not a few were indulging in the turkey trot, tango, one-step and aeroplane glide. To complete the enjoyment of the merry scene punch and a delicious collation was served in one corner of the lobby of the hotel during intermission. The splendid orchestra introduced patriotic airs in the program of music for the evening.

To mention all who were present, besides the hotel guests and 500 or more from the outside, would be impossible, as the other hotel visitors, the occupants of Daytona and peninsula cottages and their guests, were all in evidence. To mention individually all the beautiful and costly costumes worn would require column after column, but a partial list of those best known may be given.

Prior to the opening of the dance a family party was noticed in the lobby which formed one of the most pleasing and beautiful groupings. Madam Potter occupied the center and was surrounded by her children and grandchildren. She is the mother of E. L. Potter, president of the Hotel Clarendon company, and he is justly proud of her. Being of the colonial dame type, young of heart and beautiful of face, one can hardly realize that this interesting lady has almost reached her 80th year. Madam Potter's gown was a black one.

Another interesting family party was that of Mr. and Mrs. William S. Kenney and the former's mother. The elder Mrs. Kenney wore a pearl grey gown of charmeuse and white lace over light blue satin, while Mrs. William Kenney was handsomely gowned in beautiful black lace and crepe creation.

Mrs. Louis J. Friedman of Chicago in white charmeuse draped in black and rare white lace, edged about the low necked bodice with brilliants was strikingly handsome. Mrs. Friedman wore a diamond tiara in her coiffure.

Mrs. Frank Laughlin was wearing a striking combination, salmon pink, turquoise blue charmeuse and crystal and lace, attracting no end of attention, for she is a very beautiful woman.

Mrs. B. D. Woodward's stunning attire was of white satin, black net, with trimmings of crystal passementerie and black jet fringe, most effective to her queenly type.

Mrs. F. L. Seely were one of the handsomest gowns of the evening—of imported lavender brocaded satin and silver lace with wonderful jewels. Mrs. E. W. Grove, Mrs. Seely's mother, was in a beautiful gown of white brocaded satin. Her jewels were pearls and diamonds.

Mrs. E. D. Langworthy was regal in a superb old rose brocaded French gown en train; among her jewels she wore a costly antique diamond cross, a family heirloom.

Mrs. A. B. Plumb of Pittsfield was very attractive in a black chiffon and lace decollete gown, which was most becoming.

Mrs. George Clair of Preston, Ont., wore a French gown of white charmeuse and lace with pearl trimmings, diamond ornaments. Mrs. Clair is a very distinguished looking matron with two attractive young daughters,

who are very popular at the hotel. Miss Minnie wore a fetching yellow chiffon and lace gown, while her sister wore a frock of pink fringed net over satin.

Mrs. W. W. Morrison was attired in a superb gown of pink chiffon and satin and white lace. Her sister, Miss Mitchell, wore a fascinating creation of white crystal net over pink satin with trimmings of pale blue satin ribbon, tied in bows half way down on each side of the skirt.

Mrs. Rattwo of Norfolk, Va., was attired in a handsome black gown of crepe, as was also her attractive daughter, Miss Pearl Rattwo, in black embroidered crepe with jet trimmings. The frock was decollete.

Mrs. Lummis of Toronto, wore a stunning gown of black and white. Miss Jessie Lummis was in white satin with rhinestone edging the neck and with a sash of geranium chiffon.

Mrs. R. W. Bond, of Deland, created a little ripple of excitement as she appeared in her striking American Beauty charmeuse and white lace gown, just suited to her handsome face.

Mrs. R. E. Fenton of New York, one of the best dressed women now at the hotel, with originality of style, appeared in a superb white lace gown.

Both the dining room, private dining rooms and grill were all crowded with dinner parties, E. L. Potter giving one of the largest.

Igorota Craftswomen.

Though their tools are few and crude, the Igorotas are clever workmen. Some of their axes, spears and shields show a wild art all their own. The pipe-makers, too, turn out pipes of peculiar and graceful design. One day I watched the women working in clay and turning out kitchen stoves. Two girls carried clay from a distant pit, while older women in the village worked it up. Shapely urns and bowls are molded from the plastic clay and set in the hot sun to dry. I did not see them bake any pottery. They called these vessels fangans.—Christian Herald.

A Girl's Pity.

"It was King Midas, wasn't it, who turned everything he touched to gold?" "I believe so." "Poor old fellow." "Why do you think he was a poor old fellow?" "He never could eat a pickle with his fingers."—Chicago Record-Herald.

'Twas Sneezy Thing to Do.

"At whom are you looking?" demanded the young lady of the young man who obstructed her path. "Annoy!" replied the may fever victim and hurried away.—Houston Post.

As It Should Be.

Shopper—I want to buy a necktie suitable for my husband. Salesman—Sorry, madam, but we are not permitted to sell neckties to women who are unaccompanied by men.—Puck.

Speak Guardedly.

Speak not at all, in any wise, till you have somewhat to speak; care not for the reward of your speaking, but simply and with undivided mind for the truth of your speaking.—Carlyle.

New Excuse for Husbands.

Husbands who spend their evenings hitting the high spots, encounter difficulties in finding the domestic keyhole and hang their boots on the gas fixtures, may now explain that they have been afflicted with etheral asphyxia.—New York Tribune

Fish Has Vocal Organs.

Perhaps the most conspicuous example of the fishes that are capable of utterance is the drum-fish, so called by reason of the deep, booming noise it produces at will. It is found along the Atlantic coast, from Massachusetts to Florida.

Retort Discourteous.

An Englishman and a Welshman disputing in whose country was the best living, the Welshman said: "There is such noble housekeeping in Wales that I have known above a dozen cooks employed at one wedding dinner." "Ay," answered the Englishman, "that was because every man toasted his own cheese."

The Rank Majority.

It is stated on reliable authority that there are more than a million and a half different brands of cigars. Yet there are only two kinds of cigars made, good and bad—mostly the latter.

A Good Cause.

All the school teachers at Lugano have gone on strike owing to a difference with the educational authorities. With splendid loyalty the little pupils are standing by the teachers and urging them not to give way.—Punch.

Origin of the Scientist.

After reading an exhaustive treatise by some scientist who claims that poverty is the cause of bow legs, we can't help wondering what causes some scientists.—Philadelphia Inquirer.

Could Keep Up With Them.

One of the re-appointed being asked how he contrived to keep his place under successive administrations, replied that administrations must be smart that could change oftener than he could.

The Humorous Sad.

One of the funniest sad things we know is to hear a man much the worse for liquor telling his friends how good he is to his wife.—Detroit Free Press.

"White" a Misnomer.

The fallacy of the average Englishman who regards black as white has been noted by Mr. G. K. Chesterton, the English writer. "People," he writes, "never ask whether the current color language is always correct. Ordinary sensible phraseology sometimes calls black white; it certainly calls yellow white and green white and reddish brown white. We call wine 'white wine' which is as yellow as a Bluecoat boy's legs. We call grapes 'white grapes' which are manifestly pale green. We give to the European, whose complexion is a sort of pink drab, the horrible title of 'white man'—a picture more bloodcurdling than any specter in Poe."

Bedridden.

"Yes, ma'am," said Harry the hobo. "I know I look like a strong man, but out of my fifty years of life I've spent over sixteen years in bed."

"Why, you poor man?" replied the lady sympathetically, handing him a quarter. "What has been the trouble—paralysis?"

"No, ma'am," said Harry, "jest a regular habit of sleepin' eight hours a day, ma'am."—Harper's.

A Bright Idea.

Theater Manager—I can't use your play, sir. It's too long for the stage. Amateur Playwright—But, I say—aw—look here—aw! Can't you lengthen the stage, you know?

The Reason.

"I think the picture lacks atmosphere," said the kindly critic. "Fact is," said the artist, "I had a hard time raising the wind while I was painting."

Merely a Hint.

Kitty—Harry says he loves me for myself alone. Bertha—I suppose that's his way of saying your mother must be kept out of the family.—Exchange.

Such an Aid.

Young Wife—Somehow I cannot get my bread to rise, Hub.—Why don't you set the alarm clock?—Boston Transcript.

Quiet Influence in Home.

A lighted lamp is a very small thing, it burns calmly and without noise, yet it giveth light to all who are in the house. And so there is a quiet influence which, like the flame of a scented lamp, fills a man's home with light and fragrance.—McCheyne.

Not Social.

"Is your husband a Socialist?" "Indeed not. He just hates to go with me to make calls."—Detroit Free Press.

Can't Be Hidden.

Charity covers a multitude of sins, but they always stick up like tent poles under a stretch of canvas.

No Subject.

"You seem to have a bad cold."

"I not only seem to, but I have."

"Shall I cure it for you?"

"Not much. Catch one of your own and cure it."

The Ways of the Market.

Young Wife—But that's very expensive, especially as it's in season, isn't it?

Greengrocer—Well, madam, it is and it isn't, as you might say. What with the French gardening and what not, the vegetables that used to be out of season are in and them that is in is out, owing to the demand for the others.—Punch.

Worried.

The Best Man (making arrangements).—And—er—is it customary to cuss the bride?—Philadelphia Press.

For the Boy's Sake.

A Roseville man stopped smoking for the sake of his young son. "If I smoke I shall set him a bad example," he argued and gave up tobacco with many sighs of regret. For three years he has done without the weed. The other night he found a box of little cigars in the boy's coat pocket, a well smoked briar pipe in the youngster's tool box down cellar and a pack of cigarettes in the woodshed.—Newark News.

His Experience.

"In order to succeed in any line of business," said the great merchant, who was given to the habit of moralizing, "one must begin at the bottom." "I tried that," replied the young man with the fringed trousers, "and now I'm on my uppers."—Exchange.

Reckless Dissipation.

His Mother—Hiram, ain't you 'shamed o' yourself settin' up till half past 8 playin' solitaire? What you get your taste for gamblin' I don't know.—Life.

Death by Boiling.

In old England, before the law was passed which prohibited "cruel and unusual forms of punishment," murderers were often condemned to death by boiling. In such cases the victims were chained in large kettles of cold water, which were gradually heated until it caused the flesh to drop from the bones. The last English victim of the "boiling death" was one Rouse, a cook, who, it was alleged, had killed seventeen persons.

A Bad Egg.

"Owens is trying to strike every one he meets for a loan. He's a bad egg, that fellow."

"Why do you call him that?" "When he's broke he makes the fact deucedly conspicuous."—Boston Transcript.

Daily Thought.

Who, then, is free? The wise man who can govern himself.—Horace.

OCEAN BEACH—excellent bathing north for 18 miles and south 12 miles to Mosquito inlet and the Government Lighthouse at Ponce Park. The beach is the most magnificent in the world.

BEED, KNOX & BEED ORANGE GROVE—18 miles, via Ormond, is one of the largest groves in Volusia county and is well worth seeing; can be reached by motor over fairly good road; can also be reached by boat.

NUMBER NINE ORANGE GROVE—a large grove, passed on the way to the Beed, Knox & Beed grove, is 12 miles from Daytona.

NEW SMYRNA—16 miles from Daytona, over an excellent hard surface road; this drive is said to be the prettiest in the state. At New Smyrna are the ruins of an ancient fort and other historical spots, left by the colony of Andrew Turnbull.

OLD SPANISH MISSION—2 miles west of New Smyrna, reached by motor over good road. This mission is without authentic history, but by many it is contended that this is the church built by Columbus on his second voyage to America. The altar is still extant, but at a later date the building was used as a sugar mill.

SPANISH SUGAR MILL—2 miles west of Port Orange and about 3 miles from Daytona; the machinery is still in a good state of preservation, although the mill is presumed to have been built and operated by the early Spanish settlers.

DELAND—25 miles from Daytona; the county seat of Volusia county and seat of John B. Stetson university; a very picturesque city; reached by motor over hard surfaced road.

GOVERNMENT LIGHTHOUSE—a Ponce Park, 12 miles from Daytona is reached by boat or by motor on the ocean beach.

MAMMOTH TREE—4 miles from Daytona; an abnormally large tree; reached by motor over hard surfaced road.

TOMOKA RIVER—The scenic stream of Florida; reached by excursion boats which leave Daytona daily and run to the navigable head of the stream, 26 miles from the city. Generally a number of alligators may be seen in their native haunts. This is a trip no tourist should miss.

DELEON SPRINGS, 28 miles from Daytona; mammoth spring that throws out thousands of gallons of water a minute; a delightful bathing pool, and picturesque scenery. Spring is situated in an old plantation. Reached by motor over good road; a nice trip for a picnic party.

OAK HILL—hamlet, 10 miles south of New Smyrna; several orange groves in the locality; reached by motor over hard surfaced road.

ORMOND—six miles from Daytona; here is located the Ormond hotel and a pretty town; nearby are the ruins of Spanish sugar mills.

TURTLE MOUND—26 miles south of Daytona; reached by boat; a mammoth mound of oyster shells supposed to have been left by a prehistoric race of people. Pottery and other antiquities have been discovered in excavating the shell.

PORT ORANGE—an attractive town 6 miles south of Daytona, can be reached by motor over hard surfaced road; or the trip one way may be made by the road and crossing the Halifax river on the Port Orange bridge, the return can be made on the ocean beach.

CLARENDON GOLF LINKS—2 miles from Daytona and immediately north of the Hotel Clarendon at Seabreeze; the links are now in good condition. The Hotel Clarendon bears the distinction of being the only fireproof winter tourist hotel in the world.

GENERALLY, you may motor in any direction from Daytona and find places and objects of interest which your driver can explain to you; there are many by-roads through the sylvan vegetation that a visitor will greatly enjoy.

Still a Conqueror.

Old Colonel Pestilence continues to be one of the most stubborn foes that armies have to encounter.—Chicago Record-Herald.

**BODY OF JAMES MOFFATT IS
TAKEN NORTH FOR INTERMENT****TRAIN CARRYING REMAINS IN
SPECIAL CAR OF MR. FLAGLER
PASSES THROUGH CITY EARLY
TODAY.**

Carried in the private car of Henry M. Flagler, the remains of James A. Moffatt, vice president of the Standard Oil company of New Jersey, who died in Palm Beach Wednesday morning, passed through this city on a special train, running as first section of No. 38, at an early hour this morning.

Mr. Moffatt's death came after a short illness at his winter home near Palm Beach, where he has spent the winter season for a number of years. The body was accompanied north by his widow, his daughter, Miss Helen, and his sister, Mrs. Mary A. Rathbone of Parkersburg, W. Va., who have been spending the winter with him in this state.

John D. Rockefeller, who is spending the winter season at Hotel Clarendon, did not accompany the body north, as was reported from Palm Beach he would do, but the oil magnate expressed deep sorrow over the death of Mr. Moffatt.

James A. Moffatt, who was born in Parkersburg, W. Va., was about 62 years old. He began life in the Standard Oil offices at Parkersburg, and rose through various positions to be next to head of the great corporation, succeeding H. H. Rogers. He lived in Chicago several years, but of late years his offices have been in New York. He leaves a widow and two sons, James and George, and a daughter, Miss Helen. His widow was Miss Katherine Jackson, daughter of Judge James Monroe Jackson, one of the leading jurists of Virginia before the war. He was a son of Dr. George Moffatt, of Parkersburg.

America Always First.
"A machine that can do almost everything but talk has been invented by a German," we read. That is nothing. A machine that could talk was invented by an American.

**NEWLYWEDS BRING BABY
TO DAYTONA TONIGHT.**

"The Newlyweds and Their Baby," a musical comedy built around a group of cartoon characters familiar to every newspaper reader, will be seen at the New Daytona theater tonight.

This attraction serves once more to call attention to the achievement of an artist. George McManus invented "The Newlyweds" and his pictures are as famous as those of Buster Brown and the army of other mischievous youngsters. The chief figures in the play that has been made are Mr. and Mrs. Newlywed, Napoleon Newlywed, the baby, and the Big Black Bear. The story is fantastic, but the complications are said to be so numerous and comical that an entertainment of the jolliest kind results.

It appears that one Prof. Nichol, has a sort of a museum in which he exhibits a midget, "Major Knott Much." This attraction, wearying of routine duties, runs away from the museum taking with him the Big Black Bear, which is his constant companion. Prof. Nichol, facing certain ruin if he cannot find another attraction to take the place of Major Knott Much, learns that the son of Mr. and Mrs. Newlywed looks precisely like his runaway midget. He succeeds in kidnapping the baby, aided thereto by the unconscious Mrs. Newlywed, and for a time there is a flurry of excitement over the loss of the baby and the efforts to recover him. Everyone suspects everyone else of having a hand in the kidnapping, and matters are put right only after the most hopeless misunderstandings are brought about.

The company which has been engaged to illustrate this lively story on the stage includes many familiar and popular performers.

Exit.

Since there are no longer any guns on the gun deck or any berths on the berth deck, the naval authorities have wisely decided to abolish the names.—Chicago Record-Herald.

But Not for Help.

"What did you do when he kissed you—holer for help?" "No; I holered for witnesses."—Cleveland Plain Dealer.

According to accurate estimates made by a committee from the board of trade, St. Petersburg has a population of 24,000.

The Elks of St. Petersburg are furnishing one room in the new Augustus Memorial hospital now almost completed in that city.

The Orange county fair, held in Orlando last week, proved a greater success than its most sanguine promoters imagined.

Gary's fine new \$20,000 school building will be completed and ready for use in time for school to open next fall.

J. J. Palmer, one of Floral City's oldest and best beloved citizens, was found dead in his room a few days ago. The day before, it is said, he was apparently in good health.

The Reporter-Star says: "Plans are under way for the formation of a stock company for the manufacture of shoes as one of Orlando's new industries. The company will equip the plant with the best and most modern machinery."

With not an instant's warning, death came to J. W., as he was much better known as "Buck" Smith, in St. Petersburg, in the living room at the Dusenbury Villa, of which his daughter, Mrs. Lella Smith Dusenbury, is the proprietor.

The United States department of agriculture's year book says: "The south Atlantic states cover one of the richest areas of undeveloped agricultural wealth in the United States. The semi-tropical climate of Florida gives rise to agricultural conditions existing in no other humid

state. No eastern state receives the same amount of winter sunshine. A combination of irrigation and drainage has transformed lands producing celery valued at \$2,000 per acre for the crop. Florida produces the most delicate fruit and vegetable crops in the land of northern winter."

In addition to the three leading events in connection with the Ponce de Leon celebration at St. Augustine beginning March 31, namely, the landing of Ponce de Leon, the founding of the city by Menendez, and the change of flags, there will be many other notable incidents presented, including the capture of Ocooca, Indian attack upon the city and its defense by the Spanish soldiers, Spanish naval battle, fireworks display, motor boat races, street pageants and other interesting features. The executive committee, under the leadership of Amos W. Corbett, is making excellent progress and the celebration gives promise of being a big success. Floridians should plan to come from all over the state to witness the spectacle.

Test for Diamond.
To test diamonds the following is given: "Make a hole in a card with a needle and look at the card through the diamond or imitation. If it is a genuine stone you will see but one hole; if it is an imitation you will see two holes. Or, place the object to be examined on your finger and with a magnifying glass look through it. If genuine you can not see the grain of the finger; if imitation you can see the grain perfectly."

In Right Places.
A witty woman once said that house-keeping consists in taking things out and putting them back. One might elaborate the statement by saying that good housekeeping consists in getting the things back in the right places, and easy housekeeping consists in having places enough for the things.

Monarch's Odd Menu.
Peter the Great loved, and most frequently ordered for his own special enjoyment, a soup with four cabbages in it, gruel, pig, with sour cream for sauce; cold roast meat, with pickled cucumbers for salad; lemons and lamprais, salt meat, ham and limburger cheese. He began dinner with cabbage water, and closed the banquet with goblets of burgundy.

Pleasure in Life.
The life of a good man is not at all in want of pleasure, as a certain appendage, but contains pleasure in itself; for he is not a good man who does not rejoice in beautiful actions; and actions according to virtue will be in themselves delectable.—Aristotle.

Wake Up, Nick.
Nicola Naumoff, the Russian, who has just reached the age of 21, having murdered an insured fiancée for a seductive countess in romantic Venice, has, in his confession, related how this notorious dame had a little way of extinguishing her cigarettes on his bare flesh—just to see him wince, as she loved him best when he suffered.

Look to the Future.
Finish every day and be done with it. You have done what you could. Some blunders and absurdities no doubt crept in; forget them as soon as you can, tomorrow is the new day; begin it well and serenely, with too high a spirit to be cumbered by the past.—Emerson.

Little Card Suppers.
A little supper of rolled sandwiches filled with strips of celery, lobster fingers, saltine crackers, cream cheese with Bar-le-duc currants, salted nuts, candy and cider is very appetizing.

Not a Lucky Word.
"It is not a lucky word, this same impossible, no good comes to those that have it so often in their mouth."—Carlyle.

AT SEA IN AN OPEN BOAT.

An Amazing Experience Off the Coast of Korea.

The perils of the small boat at sea are told by Jack London in an article on "Small Boat Sailing" in the Yachting Monthly.

"About the briefest eight days of my life were spent in a small boat on the west coast of Korea," he writes. "I was in an open boat, a sampan, on a rocky coast where there were no light-houses and where the tides ran from thirty to sixty feet. My crew were Japanese fishermen. We did not speak each other's language. Yet there was nothing monstrous about that trip. Never shall I forget one particular cold, bitter dawn, when in the thick of driving snow we took to sail and dropped our small anchor."

"The Japanese crawled under a minimal rice mat and went to sleep. I joined them, and for several hours we drifted idly. Then a sea deluged us with icy water and we found several inches of snow on top of the mat."

"It soon became a case of swamping at our anchor. Seas were spilling on board in growing volume, and we heeled constantly. And with my fishermen crew eyed the surf buffeted shore and did nothing."

"At last, after many narrow escapes from complete swamping, the fishermen got into action. All hands pulled on to the anchor and bore it up. Forward, as the boat's head paid off, we set a patch of sail about the size of a four sack. And we headed straight for the rocky shore. I relaxed my show, unbuttoned my greatcoat and coat and was ready to make a quick partial strip a minute or so before we struck. But we didn't strike, and as we rushed in I saw the beauty of the situation. Before us opened a narrow channel, fringed at its mouth with breaking seas. Yet long before, when I had scanned the shore closely, there had been no such channel. I had forgotten the thirty foot tide. And it was for this time that the Japanese had so precariously waited."

"SCRATCHED ROCKS."

They Mark the Course of Glaciers Across Our Continent.

Throughout the northern United States, from the Atlantic ocean to the far northwest and as far south as Kentucky, huge boulders are found scattered at haphazard. The rocks and ledges are smoothed and marked with scratches varying from faint lines to broad grooves two feet deep. Some of these boulders, weighing many tons, are so balanced on a ledge that a slight touch will rock them. The Indians used them as "alarm bells."

The grooves or scratches on these rocks are as a rule parallel and extend north and south. South of the above mentioned area neither boulders nor scratched rocks can be found.

How came the boulders in their position? What scratched the rocks? Agassiz, familiar with the glaciers of the Alps, probably gave the true answer. He showed that a similar state of things is produced today by the glaciers of Switzerland. These streams of ice creep slowly down from the lofty summits of the Alps through the valleys to the plains. They bear on their surface huge rocks fallen from surrounding cliffs. The stones frozen in the bottom of the glacier, pressed down by the enormous weight of ice above them, scratch and groove the rocks beneath, as the tool of a carpenter gouges out a piece of wood.

What was the condition of America when similar effects were produced? Instead of local glaciers scattered in the valleys, the whole surface now covered with boulders must have been hidden by an immense sheet of ice. Judging from the marks on the rocks, the sheet moved from the north toward the south, carrying with it masses of rock.—Harper's Weekly.

Expectancy of Life.

All insurance is calculated upon the probable length of time a person has to live. This is called the average expectancy. Many elaborate tables have been made up by the insurance companies, some based upon one set of data, some upon another, and consequently they vary slightly. The British life annuity tables, a fair calculation, show that a man of fifty has a natural expectancy of living 21.2 years; a woman of the same age 23.5 years; at sixty his expectancy is 14.8 years, hers is 17 years; at seventy his is 9.5 years, hers 10.9 years.

She Saw.
"Why is Mrs. Wombat wearing such dowdy clothes lately? She spends half her husband's income on dress. But why is she wearing such mean looking clothes just now?"
"Her husband's mother is visiting her just now. See?"
The other woman saw.—Pittsburgh Post.

This Is English—Do You Get It?
Little Johnny came running in to his father and said:
"Oh, father, I have just gained a sovereign and three pence."
"How's that?" said his father.
"Well," said Johnny, "I have just bought a guinea pig for ninepence."

Very Thorough.
Clarice—Well, aunt, how do you like your new doctor? Aunt—Oh, immensely. He's so thorough. He never comes to see me without finding some little thing the matter with me.—Judge.

Reckless.
Howell—Did you ever do any deed of daring? Powell—Yes; I once said what I thought when guessing a woman's age.—New York Press.

Fortune in Burro's Kick.
Once, in Colorado, a miner who had been kicked in the stomach by his burro found, when he began to dust off his breeches, that it was gold dust from soft quartz adhering to 'em—and he was made.

Lack of Enterprise.
Generally the trouble with a man who doesn't get anywhere is that he has not enough confidence in his judgment to bet anything on it.

INDIANA PEOPLE TO HOLD REUNION AT THE ARCADE.

A pleasant time is promised all who attend the reunion. Following the social session in the hall, a special show of pictures will be given in the motion picture theater connected with the Arcade.

All Indians are cordially invited to register either personally or by mail at the headquarters of the state in the Elms, 215 North Beach street, addressing Stanley Bone, manager. Friends of Indiana people are invited to meet with them.

Mr. and Mrs. James Laughlin, III, Mr. and Mrs. H. Beeman, Orlando, Mr. and Mrs. E. H. Mahady, Boston, and Mr. and Mrs. Thomas Hopper, New York City, form a pleasant party who are spending a few days at Schmidt's hotel.

A Wonderful Prodigy.

The king of prodigies died on Jan. 27, 1723, at the age of five, after having astonished the whole world. His story is the most remarkable in human annals and is attested by evidence which has satisfied all the learned inquirers who have written about him. The infant, Christian Meisner, was born of respectable parents in Lubek, 1721. A few hours after his birth he began a conversation, at two months there was scarcely a subject on which he could not express an opinion, and at a year and a month he had mastered both the Old and New Testaments. He was only two and a half when he was able to answer questions concerning anything in ancient and modern history, and he was also at this time an expert geographer. He spoke Latin and French and at the age of four was speaking in the French language at the court of Denmark. All this time he was being nursed by his mother. At the age of five it became necessary for him to be weaned, and in consequence of this change of diet he died, leaving psychologists an insoluble problem.—Westminster Gazette.

Politician and Other Bibles.

"You bibliophiles talk about the 'breeches' Bible, the 'bug' Bible, the 'politician' Bible, the 'vinegar' Bible, and so on. What do those names mean?" "I'll tell you," the collector answered. "Take first the 'breeches' Bible. It is so called because a typographical error in it causes the garments made by Adam and Eve out of fig leaves to be termed breeches instead of aprons. "In the 'vinegar' Bible of 1597 the word 'vineyard' is misprinted 'vinegar.' "The 'printers' Bible, 1702, makes the psalmist say, 'Printers have persecuted me without a cause.' "The 'religious' Bible, which was printed in 1637, put 'religious' for 'rebellious' in the fourth chapter, seventeenth verse of Jeremiah—"Because she hath been religious, . . . saith the Lord." "The 'politician' Bible was published at Geneva in 1652. It makes the famous verse 'Blessed are the peacemakers' read 'Blessed are the place makers.'"

No Deception. To-day you told me that horse was free from faults. Why, it's blind. Dealer—Blind? Well, that's not a fault. That's a cruel misfortune.—San Francisco Chronicle.

Those edges soonest turn that are most keen. A sober moderation stands sure. No violent extremes endure.—Aleya.

America. I know America is capable of anything she undertakes with spirit and vigor. "Brave in distress, serene in conquest, drowsy when at rest," is her characteristic.—Abigail Adams.

Woman's Work. It takes 20 years for a mother to make a man of her son and 20 minutes for another woman to make a fool of him.—The Tatler.

Never a Business Proposition. "There ain't never no use of borrowin' trouble an' givin' up your peace of mind as security, 'cause you never get the security back."—Myrtle Reed, in "The Jack-O-Lantern House."

Cultivating Friendship. If a man does not make new acquaintance as he advances through life he will soon find himself left alone. A man, sir, should keep his friendship in constant repair.—Samuel Johnson.

The Opportunity. "There's a new suit coming out claims it can cure fits by the use of its hands." "I wish it would give someone fits on the small boy."

Small Boy Again. "Bobby, do you see that light overboard at the top of the big smokestack?" "Yes." "Well, that's Denish. It's nearly three quadrillions of miles away." "Huh! Then how do you know its name is Denish?"

Africans Never Swear. It is a strange fact that Africans never swear; neither do their descendants if they are pure blooded, although living in other parts of the world.—New York Journal.

Dickens' New Year's Wish. So may the New Year be a happy one for you, happy to many men, whose happiness depends on you; so may each year be happier than the last.—Charles Dickens.

Mistake. Patron—"What took you so long with my eggs?" Waiter—"Pardon the delay, sir; but they were mistak'ed."—Judge.

Was Nothing to Worry Over.

A clothing designer of Philadelphia committed suicide because he couldn't figure out the season's styles. Who can?

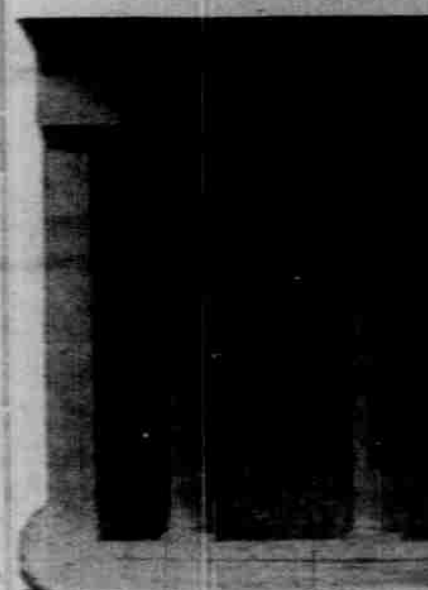

Consistent.

When a girl has hair that the men say looks like molasses candy, you can't blame the other girls for wanting to pull it.

Evidently a Lingerer.

He—"I'm going to kiss you when I go." She—"You'll forget how to kiss by that time."
